Upper:

ALcap -Lightweight,

impact-resistant

aluminium toe cap

**Upper lining:** Toe-cap:

**Anti-intrusion insole:** 

Sole: Tread:

Made of anti-perforation, absorbent, abrasion- and flakingresistant fabric.

Made of antistatic bidensity polyurethane, directly injected onto the upper with electrostatic charge dissipation capacity.

Special HDRY membrane, waterproof and breathable sealed directly

to the upper thanks to the innovative 3D lamination process.

Aluminium toe-cap with large internal space for

Breathable mesh fabric with durable microfiber heel abrasion.

High density, non-slip (SRC), abrasion- and hydrocarbonresistant.

Midsole: Low-density, comfortable and shockproof.

improved toe comfort.

200 Joule impact protection.

Compression protection 1,500 kg.

Waterproof and breathable footwear thanks to the special HDRY membrane laminated directly to the upper in greased nubuk

Breathable mesh fabric lining with microfiber heel abrasion resistant. Antistatic footwear with non-slip and anti-shock sole.

## RECOMMENDED USES

Industry, building, handicraft, logistics.

## USE AND MAINTENANCE

Make sure the shoes are in good condition before each use. Take care to regularly clean them.

Do not use aggressive products such as petrol, acids and solvents that could affect their quality, safety and durability.
